INCLUDATE

Educating for Inclusion

Newsletter #2

PAST EVENTS

TRANSNATIONAL PROJECT MEETINGS

After the Conversation of Change events, held both at the local level and the International level online, the INCLUDATE partners kept working hard to reach the project's goals.

The consortium met in Copenhagen in November and then in Palermo in July to discuss the state of the project and to plan the next steps to take the project forward!

Copenhagen

PAST EVENTS

INTERNATIONAL TRAINING - LOCAL STRATEGIES AND ACTION PLANS FOR SOCIAL INCLUSION

A group of 15 people from Poland, Hungary, Germany, Denmark and Italy met in Palermo to implement the 2nd international training of the project called "Local Strategies and Action Plans for Social Inclusion".

The training focused on learning how to create a first draft of a strategic document that partners can present and negotiate in the future with other local partners and institutions.

Palermo

Includate identifies the need for capacity building to enable migrant associations to be involved in inclusion and diversity strategies, starting with a careful analysis of the needs of the communities involved.

Communication and cooperation between municipalities, residents with a migration background and migrant associations require intercultural skills and specific methods from both public policy-making bodies and association actors.

Thus, by combining municipal community actors and migrants from different national contexts and cities of different sizes, the project shapes a broad spectrum of knowledge, experience and perspectives to identify a strategy for strengthening inclusion and diversity in European cities.

As part of the training, the group took part in a migrant tour called “Through my eyes”, organised by Moltivolti.

E-BOOK

Through the use of tools and methodologies such as community mapping, community reporting and storytelling, as presented in the previous newsletter, the consortium collected the lived stories of residents with migrant backgrounds and worked on presenting the themes and issues addressed by the participants to stakeholders on the local, national, and European Level.

By the end of this project, each participating city will produce action plans and recommendations for more inclusive policies in all participating cities, starting from the needs and issues identified by the local communities. The methodologies used and stories collected for each participating country can be found in the ebook "Educating for Inclusion - Analysing Includate Communities". Soon you can find it on our website.

UPCOMING EVENTS

- Transnational Project Meeting in Strasbourg 4th of December.
- Reach out event Strasbourg 5th of December, Grande Salle, Maison des associations.

Join us on the one-day event focused on increasing young people's awareness of international relations and representative democracy. During this meeting, we will be able to find out more about the #INCLUDATE project's results on the creation of #inclusion and #diversity strategies involving people with migrant backgrounds & on the #PACIFY-D project's achievements, focusing on empowering young local ambassadors through #diplomacy. Don't miss out on this special occasion to learn, collaborate, and make a positive impact together!
