Key Results of the INCLUDATE Project

e-Book: Analysing Includate Communities

This digital resource, enriched with visual elements and interactive maps, was developed by mapping and analysing local migrant communities in Budapest, Gdynia, Palermo, Berlin, and Copenhagen. The e-Book presents the needs, challenges, and capacities of these communities, helping local stakeholders better understand the role of people with a migrant background and their expectations for inclusion.

Local strategies and Action Plans

The five action plans were created by the partners with the support of local communities based on the learning outcomes from the project's activities. The strategies aim to guide the implementation of inclusion practices tailored to the specific needs of each community, providing a framework for building more inclusive and diverse urban environments and societies.

Key Results of the INCLUDATE Project

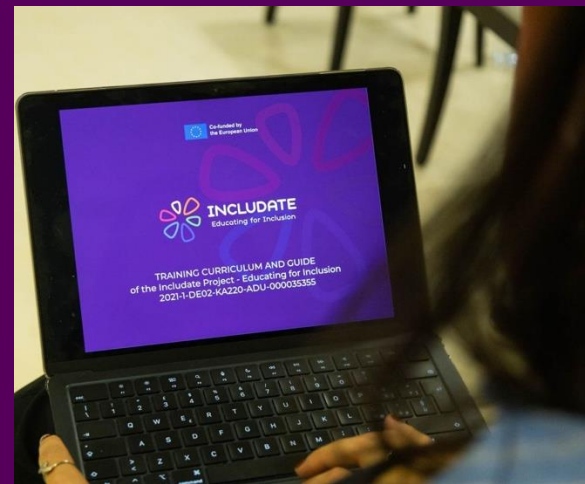

Curriculum for Community Impact and Training Guide

This interactive learning tool is designed for NGOs, grassroots organisations, municipalities, and public bodies. It will offer practical guidance on how to foster inclusion and diversity in local communities, providing a foundation for capacity-building and strategic development in these areas, as well as concrete activities to implement with different target groups.

All the results can be found in the INCLUDATE website here:
